Representation Theory, Geometry & Mathematical Physics

A Conference in Honor of Alexandre Kirillov's 90th Birthday

DATE	VENUE	LOCATION
May 26–27, 2026	Simons Center for Geometry and Physics	Stony Brook University, New York

A. A. Kirillov

Alexandre Alexandrovich Kirillov is one of the most influential mathematicians of the twentieth century. His orbit method — developed in the 1960s to classify irreducible unitary representations of nilpotent Lie groups — revolutionized representation theory and continues to shape modern mathematics and mathematical physics.

This conference brings together leading researchers to celebrate his 90th birthday and his profound contributions to representation theory, geometry, and mathematical physics.

In-person talks will be given on May 26–27. Zoom talks will be given in the following days (to be determined).

IN-PERSON TALKS

Arkady Berenstein	*University of Oregon*
Igor Frenkel	*Yale University*
Alexander Goncharov	*Yale University*
Leonid Makar-Limanov	*Wayne University*
Valentin Ovsienko	*University of Reims*
Michael Pevzner	*University of Reims*
Vladimir Retakh	*Rutgers University*
Vera Serganova	*UC Berkeley*
Dennis Sullivan	*Stony Brook University*
Leon Takhtajan	*Stony Brook University*

ZOOM TALKS

Joseph Bernstein	*Tel Aviv University*
Dmitry Fuchs	*UC Davis*
Victor Ginzburg	*University of Chicago*
David Kazhdan	*Hebrew University*
Sergey Khoroshkin	*HSE University*
Maxim Kontsevich	*IHES*
Alexander Molev	*University of Sydney*
Nikita Nekrasov	*SCGP, Stony Brook*
Yury Neretin	*University of Graz*
Andrei Okounkov	*Columbia University*
Grigori Olshanski	*HSE University*
Nikolai Reshetikhin	*Tsinghua University*

ORGANIZING COMMITTEE

Pavel Etingof
Massachusetts Institute of Technology

Aleksei Borodin
Massachusetts Institute of Technology

Alexander Kirillov Jr.
Stony Brook University

ORGANIZED BY

Institute for Mathematical Sciences
Stony Brook University

Simons Center for Geometry and Physics
Stony Brook University

Contact: etingof@math.mit.edu
